

# FIGHTING COVID-19

## Cleaning, Disinfecting and Sanitizing Services

**Piedmont Pro Clean offers professional cleaning and disinfection services for home and office. Protect your family, employees and customers from Covid-19.**

Deep cleaning is an essential part of disinfection. Organic matter can inactivate many disinfectants. Cleaning reduces the soil load allowing the disinfectant to work. Removal of germs such as the virus that causes COVID-19 requires a thorough cleaning followed by disinfecting.

### CLEANING AND DISINFECTING OF HIGH-FREQUENCY TOUCH SURFACES

- Desks and countertops
- Doorknobs
- Handrails
- Light switches
- Phones and keyboards
- Faucets and sinks
- And much more

### DISINFECTION PROCESS

Piedmont Pro Clean uses a highly acclaimed botanical disinfectant that is EPA registered and kills 99.9% of viruses (including the virus that causes COVID-19). Our disinfectant can be applied by foggers, misters, electrostatic sprayers, and pump or manual sprayers.
